

Summary

Digital & Graphic Designer with 1 year experience in both marketing agency and SaaS environments, specializing in digital design, marketing, and brand identity with a focus on delivering scalable designs that accelerate feature delivery. Proven ability to improve user experiences and ensure brand cohesion across all platforms, most recently leading the redesign of Jeto.io by owning the UX/UI, custom graphics, and WordPress implementation to elevate digital credibility.

Skills

Adobe Creative Suite | Visual Identity | Figma | UX/UI | Web & Print | WordPress | Digital Marketing | HTML/CSS | Agile

Experience

UI/UX - Graphic Designer

Aug 2025–Present

Jeto.io | Remote

- Solely redesigned Jeto.io website to align with new post-acquisition brand guidelines, applying user research and conversion-focused principles to refine visual hierarchy, prioritise high-value content, and improve CTA effectiveness, resulting in a more intuitive user journey and a clearer path to conversion for B2B visitors
- Developed high-fidelity custom web assets and marketing graphics using Figma and Photoshop, ensuring all imagery was cohesive, professional, and optimized for a polished digital presence
- Owned the end-to-end WordPress implementation of the redesigned site, building responsive layouts with WPBakery and custom HTML/CSS, which freed up engineering capacity and accelerated delivery of other key product features within a small team environment
- Consistently met sprint goals by delivering high-quality design work on time, supporting release cycles

Graphic Design Intern

April–May 2025

MERGE | Remote

- Created brand-aligned marketing graphics for MERGE collateral, translating concepts into polished visuals that improved clarity in stakeholder presentations and supported buy-in
- Designed a client-facing white paper showcasing the product's value proposition, highlighting new revenue-focused features to improve client understanding and support sales enablement
- Partnered with the marketing team to translate an evolving brand identity into production-ready graphic design assets, speeding up iteration cycles and enabling early, on-brand releases

Education

Digital Design & Development

Sept 2023–June 2025
